RECREATION PLAN

The preparation of a Recreation Plan (Plan) was adopted by the City Council as a major City goal in May 2005. A Recreation Plan is a flexible document that guides the orderly and systematic development of public recreation and community services programs and facilities, striving to meet the needs of residents and implemented over a 10-year period. The Plan answers the question of how recreation can best serve the community at large or the greater good with limited resources whether funding, people, or facilities. The Mountain View Recreation Plan will be a community based plan that has used various public outreach tools to identify the recreational needs of residents, considers growth trends, demography and socio-economic indicators as well as the current inventory of programs and facilities, including the distribution and condition of those resources.

Phase One of the Plan development has been completed. This included: two Community Workshops held on June 7 and September 27, 2006; stakeholder interviews, participant, community group and athletic facility user group surveys. Phase Two of the Plan is underway. Focus groups will meet in December to discuss common themes identified in the information gathering stage. Phase Three involves the creation of the document, including recommended strategic goals and actions to address the needs over the 10-year life of the Plan. A draft of the Plan is scheduled to be completed in March 2007, at which time it will be submitted to the City Council by the Parks and Recreation Commission for review and approval. For updated information on the Recreation Plan and related documents are located at www.mountainview.gov or contact Regina Maurantonio, Senior Administrative Analyst at (650) 903-6254.

Community

Volunteer and Job Opportunities

What can volunteering do for you? Promote your health by doing good!

Volunteering is great for your community and makes the world a better place, and it can boost your own health at the same time!

A few of the health benefits from volunteering are

City of Mountain View Public Library SOS - Special Outreach Services

SOS is a Library service available to residents of Mountain View. The purpose of this community service is to provide delivery of materials (including books, large-print books, books-on-CD, etc.) to seniors or others who, because of illness or physical disability, are homebound and unable to visit the Library.

This service is conducted primarily through partnership with community volunteers who deliver and pick up Library materials during a designated week each month. In many cases the volunteers will also select the materials to be delivered based on “Patron Profile” information gathered by Library staff. It is hoped that through this experience both the patron and the volunteer will enjoy a mutually rewarding experience.

Building Strong Preschoolers for the Future

As a community, we all want our children to grow up to be the best they can be, get along with others, be healthy, be athletic, do well in school, feel safe and valued by their community. This article, presents a variety of ways to enrich your child’s experience and build a stronger future.

Is your preschooler active and always on the go? If so, they are showing signs of a healthy and active child. Studies show that preschoolers ages 3-5 years of age need to engage in one hour of unstructured physical activities and one hour of adult led activities each day. Studies also show that children should not be inactive for more than one hour at a time except for when they are sleeping. It is recommended that they watch less than 30 minutes of TV each day. Having regular scheduled planned activities is very important for your preschooler physically, mentally, and socially. Have them help in planning the activities for the day as this will help them build a sense of purpose and their self-esteem.

Your preschooler is looking to you for guidance, reassurance, and someone to play with.

Here are some ways for you and your Preschooler to Build a Healthy Lifestyle Together:

- Invest in a hobby together (Introduce your favorite or find one together)
- Eat Healthy foods and make sure they are getting a balanced diet recommended by the USDA.
- Participate in Safe Bike/Tricycle riding
- Walk to the park versus driving
- Enroll them in sport activities and/or Parent/Tot classes with the City of Mountain View
- Have them help with food preparation or in the kitchen
- Arrange for them to be involved in preschool, playgroups and/or play dates
- Take them hiking or on nature walks
- Avoid just watching and become active with them on the playground.
- Teach and play fun games with them like hopscotch, jump rope, catch, kick ball and other games you played when you were a child
- Make sure the activities you participate in together are age-appropriate and that they feel a sense of pride while participating in them.
